

Islanders urged to visit Suisse Normande area

REPRESENTATIVES from the Suisse Normande tourism office were in the Island this week to put in place a special display showing just what the region has to offer this summer.

Canoeing, trekking, horse-riding, mountain biking, hang-gliding and of course golf are just some of the

sports taking place in the region, some 26 km south of Caen.

Full information is available from Maison de la Normandie in Halkett Place, as part of the ongoing initiative to encourage cross-cultural visits between Normandy and the Channel Islands.

The new summer timetable for the Manche Isle Express between Jersey and Granville also gets under way later this month with a special day trip on 21 April for politicians and dignitaries, including Chief Minister Frank Walker and Transport Minister Guy de Faye, who will be met by their counterparts in Granville.

Lucy Morice, Sylvie Vandevivere and Marina Laline prepare the display in Maison de la Normandie
